FOREWORD

Here is a book of memories for the student body of the Hart School. We have captured these memories by the eyes of the camera and the keys of the typewriter, and have given permanence to them. These are recent memories but time will change that. To record these memories has been the purpose of the Longhorn staff. Enjoy them now; enjoy them later and we shall have our reward.

Hart School

Dedication

To every student of the Hart School we dedicate the 1961 Longhorn.

You have been willing to work with devotion and have put forth your efforts and energy to make the school what it is today. We want to congratulate you on a fine job.

We hope you will treasure this volume and the many fond memories of this school year.

Superintendent's Message

Mr. Paul Kennedy

Last year we discussed, briefly, the expression: "Are you a part of the problem, or do you have a solution?"

I am happy this year to say to you that I sincerely believe each of you is a part of the solution.

It has been my pleasure to observe you for the past three years and watch you as you have assumed more responsibility, attacked greater and more difficult assignments, and elevated the standards of your education in Hart Independent School system to the higher levels.

Now is not the time to falter and stop: but as time and civilization progress, surely you, as a student body, will rise to the challenge and take advantage of opportunities as they are presented, so that for now and always people can compliment you by the use of the greatest expression in our language: "You have done a fine job."

Paul R. Kennedy

High School Principal

It has been said "It matters not how long you live but how well." This is certainly true and the key to how well one lives can be found in education. Education is a companion which no misfortune can decrease; no crime, destroy; no despotism, enslave. Education is never cheap, but you will be repaid every cost one-hundred fold.

I know of no formula to success, but I feel that work, fairness, faith, and Christian character are some of the important factors that help to make a happy individual. I hope that Hart School has rendered every service possible toward providing the student body with a large portion of these desired criteria to success and happiness.

For the rest of your lives you will be representing Hart High School. Hart is a school to be proud of and I urge you to always carry on the fine customs and traditions that it endorses.

Sincerely,

Malcolm Atwood

Malcolm Atwood

The bridge we build from childhood to adulthood is constructed of many materials but one of the most important is education. The free education which is afforded each child in America is vital in a free democratic society.

Your years in the Hart Schools are something to behold and cherish the rest of your life. The knowledge you acquire during these years is something which will affect your life from this day forward. Let us take advantage of this wonderful opportunity and strive for fuller, richer, more enlightened, and more Christian lives.

May you each find success in your future years.

Sincerely

James Rushing
